THE CERT ALERT

“CERT ONE” ROLLS ON JULY FOURTH

The Fourth of July 2005 marked the first-ever activation of “CERT One,” a group of CERT volunteers who were on-call to provide hydration for crews from the Fresno Fire Department. With generous support from the Department, volunteers Stacie Santiago, Heather Rusk, Karen Brown and Cedric Reese responded to the Sussex Avenue fire in a van stocked with bottled water. The volunteers, on-air as “CERT One,” staged at Station Four at Tulare and First, and were treated with hospitality and appreciation by the station crew and all of the Fresno Fire personnel. Thanks to the volunteers and the Fresno Fire Department for this opportunity to serve the community.

FIRE SKILLS TESTED

Less than two weeks after completing the CERT series offered on the campus of Fresno Pacific University in May, security personnel Albert Bernabe and Renee Hernandez spotted a small fire at a church adjacent to the campus and used their newly acquired suppression skills to extinguish the fire. **Well done Albert and Renee!**
